

EULA RAE
PRINTING AND PUBLISHING

THE MOMENT OF TRUTH

The most common place an author stalls isn't the writing--it's the technical middle. The ISBNs, the trim sizes, the distribution metadata, and the formatting hurdles. These details can feel overwhelming and easy to get wrong.

Eula Rae exists to manage the production side of self-publishing, including formatting, copyediting support, and light-to-moderate proofreading, so authors can move forward with clarity, confidence, and full creative control.

WHAT WE HANDLE

- **Production Clarity:** Guidance on trim sizes, paper options, and print specs so decisions feel informed, not guesswork.
- **Professional Interior Formatting:** Clean, bookstore-ready layouts that meet professional print standards and reader expectations, including proof-level text cleanup during layout.
- **Editorial Readiness Support:** Manuscript assessment, copyediting support, and light-to-moderate proofreading to ensure your book is clean, clear, and publication-ready (no developmental editing or rewriting).
- **Technical Setup & Distribution:** ISBNs, cataloging, and global distribution handled correctly.
- **Production Management:** Coordinating files, timelines, and technical requirements across the production and distribution process so details don't fall through the cracks.
- **Author Ownership:** Authors retain full rights, control, and creative authority.

You don't have to figure this part out alone.
